January 1, 2026 Hronsek, Slovakia

Dear SAWS members, dear friends.

The year 2025 was a year of expectations and questions about how we will do in the activities of our association. We have successfully implemented the planned competitions again, including not only the international QW 2025 and SR 2025, but also the educational AC Camp, without any emergency situation. We have complied with all regulations in force in Slovakia in order to play sports and maintain the operation of our association. It is a great testament to the work of all of us. I congratulate all SAWS members who have won valuable metals at domestic and international competitions, including EOT 2025 and DOT 2025.

This year we are finalizing the preparation of DOT 2026 Domaniža with the aim of once again preparing this top European CAS event at a top level.

The beginning of 2026 again brings many questions into our lives. We are tired of the things that are happening around us and the daily unclear information about the economic or social situation. There are again many questions that we do not yet know the answer to.

We said goodbye to several friends with sadness. We have new members, including juniors, new equipment and new plans. The 2026 shooting calendar brings interesting competitions, including new settings for their content, educational dimension, as well as the very popular Friday movie nights at Domaniža. We also do not forget the need for part-time work for SAWS.

The SAWS Presidium will closely monitor events in Europe and, just like in 2025, we will address all activities of our association. Please follow the announcements on the SAWS website, which reflect the resolutions of the SAWS 2025 General Assembly. If you have any questions, do not hesitate to contact me.

The amount of the membership fee this year reflects your part-time work activity for 2025 according to the SAWS Statutes and VH 2025. Each member chooses their own attitude towards part-time work, just like with other hobby activities. I ask you to pay this year's membership fees on time by the end of March so that we can continue our work. Please also pay attention to the 2%. Finances are certainly a topic for many households, but they are also necessary for our association.

Dear friends, I wish you good health, happiness and only positive news in this new year.

Best regards

Michal Venglarčík aka Bambino # SASS 90118, Regulator  
President of SAWS Slovakia
