February 9, 2026 Hronsek, Slovakia

Dear Ladies and Gentlemen.

During today's finalization of the DOT 2026 documentation, there was an unwanted manipulation of SAWS data by one of our club admins, which led to the deletion of the entire SAWS club account, including DOT 2026 materials.

Fortunately, the CS website is properly managed and backed up and will be properly restored today, with the proviso that all data must be restored uniformly for the entire CS system. This means across all clubs.

Therefore, I would like to ask you to check the data that you have placed on your club websites in the last 24 hours (during today), as the CS website will be restored to the state in which it was backed up, i.e. at 01:00 Monday, February 09, 2026. I would like to thank AWS President Colbert for his invaluable assistance and solutions to the problem that arose.

**For the above reason, the DOT 2026 registration opening will be postponed to Wednesday, February 11, at 12:00.**

Once again, please accept my apologies for the situation that has arisen and I hope to see you soon at DOT 2026 Domaniža.

Sincerely

Michal Venglarčík aka Bambino # SASS 90118, Regulator  
President of SAWS Slovakia
